With regards to:

The November 5th LAFCO meeting, agenda 4 (Municipal Service Review of the Isla Vista Community Services District Regarding Latent Powers):

I would like to request for option # 3, which is to DENY the Staff recommendation or any other proposal to extend the time and direct Staff to proceed with the municipal service review in compliance with the Condition 11 of the Resolution of the Formation.

I am requesting this review to be done at the soonest opportunity because, as a permanent resident of Isla Vista, I do not see any the benefits or areas in which the Isla Vista Community Services District has acted since its inception. I have looked over their budget and am concerned that most of it are staff/operating costs, and that the benefits to the community are negligible. I believe that the residents of Isla Vista are being doubly taxed for services that are already handled by the County.

Thank you for your consideration.

Julia Barbosa
