Subject: Los Olivos CSD PETITION

Please process the Los Olivos CSD petition first and put the SYCSD SOI application on hold until we have the results of a local election. This is the fastest way to resolve the best governance choice for our town's wastewater management challenges and preserves the SYCSD option pending a local vote outcome. We had more than twice the required petition signatures and it seems only fair to do it this way. Please advise.

Thank you,  
Theodora Stephan
