Subject: **Re: LAFCO RR Corridor Staff Report**

Charles and Paul,

Thank you both for speaking with me today regarding LAFCO File 13-8. Union Pacific (UP) had forwarded correspondence opposing this annexation, because we initially did not know what effect the proposed annexation had on UP property. In my discussions with both of you, you each confirmed that 1. UP does not receive water service from the Water District for any facilities within the annexation area; and 2. approval of the proposed annexation would not cause fees or charges to be assessed against UP or UP property within the annexation area.

If my understanding of our discussions is correct, you are both authorized to reflect in your files that UP has rescinded its previous correspondence opposing the annexation.

Please feel free to contact me with any questions.

Sincerely yours,

Anna C. Palmer
