Goleta Sanitary District Wastewater Treatment Plant Upgrade

Dear Members of the Commission:

Recommendation

Receive a presentation from Kamil Azoury, General Manager/Chief Engineer of the Goleta Sanitary District regarding a project to upgrade the District wastewater treatment facility.

Discussion

The Goleta Sanitary District wastewater treatment facility disposes of effluent collected from much of the Goleta Valley. The District is engaged in a construction project to upgrade the plant.

The District has agreed to provide the Commission with an informational presentation explaining the justification for the project and what the facility will entail when it is completed.

No specific Commission action is recommended other than to receive the presentation.

Sincerely,

BOB BRAITMAN
Executive Officer
