Subject: Do not convert prime ag land into housing

Please deny the City's proposal and prevent the conversion of 148.3 acres of important agricultural land in Lompoc.

- Approval of this project would threaten unique and important prime farmland and undermine local agricultural production. We need to eat...don't you?
- There is sufficient, vacant undeveloped land within the City's current boundaries to accommodate the City's housing needs. It is far better to build housing as infill than to scatter it outward into agricultural land.
