

**IMPARTIAL ANALYSIS FOR MEASURE F2016
APPROVAL OF A UTILITY USER TAX FOR THE ISLA VISTA COMMUNITY
SERVICES DISTRICT**

This measure was placed on the ballot by the Board of Supervisors pursuant to direction by the Local Agency Formation Commission (“LAFCO”) under Government Code section 61250(c)(4). This ballot measure is to determine if the voters in the proposed Isla Vista Community Services District will authorize the levying of a utility user tax to fund the proposed District. A “YES” vote by a two-thirds the voters means that the utility user tax shall be imposed, provided formation of the proposed District is approved by a majority of the voters in a separate ballot measure. A “NO” vote is a vote against imposition of a utility user tax. If the voters do not approve a utility user tax on or before January 1, 2023, regardless of whether the voters approve District formation, the District shall be dissolved as of that date.

The District would encompass a population of approximately 15,000 residents in the unincorporated area of the County of Santa Barbara known as Isla Vista and is approximately a half square mile, coterminous with the boundaries of County Service Area No. 31, excluding any property owned by the Regents of the University of California within those boundaries.

Effective January 1, 2016, Government Code section 61250 was added to the Community Services District Law to provide for formation of the District. LAFCO was required to order formation, but had discretion to determine which services could be provided and to establish the utility user tax rate.

LAFCO ordered the formation of the District, subject to voter approval, determined which services may initially be provided and set the utility user tax rate at 8 percent. The utility user tax is subject to a two-thirds voter approval. The tax shall only be used to fund the following services:

- (A) Finance the operations of municipal advisory councils.
- (B) Create a tenant mediation program.
- (C) Finance the operations of area planning commissions.
- (D) Exercise the powers of a parking district.
- (E) Contract with the County of Santa Barbara or the Regents of the University of California, or both, for additional police protection services to supplement the level of police protection services already provided by either the County of Santa Barbara or the Regents of the University of California within the area of the district.
- (F) Acquire, construct, improve, maintain, and operate community facilities, including, but not limited to, community centers, libraries, theaters, museums, cultural facilities, and child care facilities.

(G) Acquire, construct, improve, and maintain sidewalks, lighting, gutters, and trees to supplement the level of service already provided by either the County of Santa Barbara or County Service Area 31.

(H) Abate graffiti.

If approved by the voters, a utility user tax may be imposed by resolution of the district board on utilities of gas, water, electricity, sewer, or garbage disposal services but shall not apply to any telecommunications utility service provider. The Isla Vista Governance Options Financial Analysis Study estimated the tax could generate \$512,000 annually. More information is available in the Isla Vista Community Services District Plan of Service prepared by the Isla Vista Self Governance Initiative. Both documents are available at sblafco.org.
