Subject: Request to Honor Los Olivos Petition

Commissioners:

This is to respectfully request that you honor the petition and application to be submitted for your consideration on December 8, 2016, that will provide the opportunity for residents of Los Olivos to vote on the formation of a Community Service District in the spring of 2017.

I strongly believe Los Olivos residents who will bear the burden of paying for the State-mandated wastewater improvement treatment facilities should make the decision on how the program will be implemented and managed.

As of this writing it is my understanding that I am joined by over 250 Los Olivos residents of the Special Problems area who agree with this request.

Sincerely,
Neil M. Cline
2175 Keenan Road
