Subject: Please postpone the Bailey Avenue SOI expansion hearing for the City of Lompoc

To Whom it May Concern,

Given the volume of material (almost 2,000 pages) associated with this project, I am requesting that LAFCO postpone this decision until the February 2 hearing to allow time for proper review of the associated documents. Thank you for considering this request in the spirit of public participation. I have great concerns about this SOI expansion when there is ample infill potential within the existing city boundaries.

Best Regards,
Christina McGinnis
