Subject: Do not develop land along Bailey Avenue in Lompoc
Date: Monday, January 30, 2023 2:59:08 PM

I urge you to oppose the City of Lompoc proposal to allow development of 148 acres of prime agriculture land outside city limits. Though the county is understandably anxious to build more housing, it makes no sense to build housing in this location. It is a distance from employment centers and will require long commutes, which will increase carbon emissions as residents drive long distances to their jobs. Also, it will create urban sprawl. Let the property remain in agriculture and, instead, develop available sites within the city limits.

Thank you.
