

SANTA BARBARA LOCAL AGENCY FORMATION COMMISSION  
EXECUTIVE OFFICER'S REPORT

June 1, 2017 (Agenda)

LAFCO 17-03 Beach Club Road Annexation to the Carpinteria Sanitary District

PROPONENT: Board of Directors of the Carpinteria Sanitary District, by resolution.

ACREAGE & LOCATION Annexation of one parcel of approximately 0.25 acres to the Carpinteria Sanitary District. The property is located at 3230 Beach Club Road (APN 005-390-056) **(Exhibits A and B)**.

PURPOSE: To provide sewer service to the parcel for a remodel of an existing single family residence that is currently serviced by an on-site septic system.

GENERAL ANALYSIS:

Description of Project

At the request of the property owner, the Carpinteria Sanitary District is proposing this annexation. Connection to the public sewer will comprise of a new private sewer ejector pump and lateral from the property to the existing sewer main in Padaro Lane.

Sphere of Influence

This parcel, and neighboring lots, are outside the Carpinteria Sanitary Districts Sphere of Influence. This annexation will require a revision to the district's sphere of influence.

Project Information

1. Land Use, Planning and Zoning - Present and Future:

The land use of this parcel is Residential 9-R-1. There will be no zoning changes as a result of the annexation. The existing residence and proposed remodel conform with the current zoning.

The action to extend sewers to the properties in this area is consistent with the Santa Barbara County Toro Canyon Plan Policy WW-TC-1 and related development standards that direct the implementation of wastewater treatment systems that reduce future reliance on septic systems with connections to the District sewer.

2. Environmental Justice:

The annexation will have no effect with respect to the fair treatment of people of all races and income, or the location of public facilities or services.

3. Topography, Natural Features and Drainage Basins

The residential parcel slopes to the southeast towards Garipato Creek and the Pacific Ocean. The parcel is approximately 125 feet west of Garipato Creek. The private sewage disposal system is not practical since the water table is very shallow beneath the site.

The surrounding area consists of single-family residences to the south, east and west.

4. Population:

Although the residence is occupied, for legal purposes it is uninhabited (less than 12 registered voters).

5. Governmental Services and Controls - Need, Cost, Adequacy and Availability:

The Carpinteria Sanitary District's "Plan for Providing Services within the Affected Territory" as required by Government Code Section 56653 indicates that wastewater service to the residence will not be an impact. Once the annexation is complete, the owner will be responsible for financing all of the required sewer improvements to serve the property. Operation and maintenance will be financed via the sewer service charge which are collected annually through the Santa Barbara County tax rolls.

6. Impact on Prime Agricultural Land, Open Space and Agriculture:

The project site is not prime agricultural land as defined in Government Code Section 56064.

7. Assessed Value, Tax Rates and Indebtedness:

The assessed value and tax rate of the property will not be affected by this change. The proposal is within Tax Rate Area 059012. The Land Value is \$62,605 and Improvement Value is \$90,444 for a Total Assessed Value of \$153,049 on the 2016-17 Roll. The property is included in TRA 059012.

8. Environmental Impact of the Proposal:

The proposal to be Categorically Exempt (Class 19) from the California Environmental Quality Act pursuant to CEQA Guidelines Section 15319 (Annexation of Existing Facilities and Lots for Exemption Facilities) (**Exhibit C**)

9. Landowner and Annexing Agency Consent:

The Landowners and the Carpinteria Sanitary District consent to the annexation.

Government Code Section 56663 allows the Commission to waive protest proceedings if the landowner and annexing agency agree to the annexation.

10. Boundaries, Lines of Assessment and Registered Voters:

There are no conflicts with lines of assessment or ownership. The property is contiguous to the District. The site is uninhabited; namely, there are more less than 12 registered voters in the annexation area.

The boundaries are definite and certain.

Conclusion:

The annexation proposal represents a logical and reasonable extension of the boundaries of the Carpinteria Sanitary District.
